REPORT OF THE SCHOOL BOARD

Another year has passed and we feel that our continued interest in our schools has been rewarded by the extra work of both teachers and pupils.

The sewing classes in some of the schools have proved a success and may all do their part another year.

Another feature was the request of the state superintendent that every child should have a school garden. Several teachers reported to the chairman and we have had the amounts raised by the children printed in the Plymouth Record. They raised one hundred and twelve bushels of potatoes, also many other vegetables. We hope this will encourage all to try next year to have Campton rank one of the first in this work. I think all who have taken interest in these things have taken greater interest in their studies.

In order to accommodate the number of pupils at Beebe River another room will have to be added. Owing to the high cost of materials only necessary repairs have been made. During the coming year we hope to do more.

We shall try and do our part and will every parent cooperate with school board, teachers and children to improve Campton schools in every way possible?

CLARA J. PULSIFER,
L. RIDDELL MORRISON,
GEORGE D. PATTEE.
